

REPORT OF SUPERVISORS OF THE CHECKLIST

The Supervisors of the Checklist had a very busy 2006. The state instituted a statewide voter registration list. Alton still controls its own list; however, all the towns/cities of the state are connected to Concord through a program called Electionet. For us to make changes or corrections to the voter list, we have to go to the internet and log into Concord's program.

The three supervisors each received at least 32 hours of training throughout the year and spent many other hours working with Alton's Registration Cards to be sure that the correct information is in the program. We are finding many cases of no birth date, no birthplace, or a very incorrect address. Therefore, many of you are/will be receiving a letter from us requesting the correct information. Please help us by responding.

Respectfully Submitted,
